

Job Title: Assistant Professor – Computer Science
Job ID: 30151
Location: College of Staten Island
Full/Part Time: Full-Time
Regular/Temporary: Regular

FACULTY VACANCY ANNOUNCEMENT

The College of Staten Island, an accredited senior college of The City University of New York (CUNY), seeks applicants for appointment to a tenure-track Assistant Professor position in the Department of Computer Science, with preference given to those working in artificial intelligence, machine learning, security, data science, mobile computing, distributed computing, or cloud computing; however researchers in other areas of Computer Science are also encouraged to apply. Applicants should demonstrate a successful teaching record, exceptional research productivity through a solid, peer-reviewed publication record; have experience initiating research projects and the credentials appropriate for appointment to the doctoral faculty of the CUNY Graduate Center. Additionally, the successful candidate will be expected to teach a variety of undergraduate and graduate computer science courses. The candidate will be also expected to establish a nationally recognized research program, as well to participate in faculty service.

The College of Staten Island (CSI) serves about 10,000 students who represent the diversity of New York City and the Borough of Staten Island. CSI's internationally recognized faculty passionately engage in scholarly and artistic activities, and together with a strong professional staff, lead students through transformational learning experiences inside and outside the classroom. The College is situated on a 204-acre site with residential housing. It is a hub of intellectual and artistic activity and a community partner and source of economic impact and job creation for the greater Staten Island area.

The College is committed to educational excellence and instilling in students a love of learning and respect for pluralism and diversity. The College community recognizes its responsibility to strive for the common good, including an informed appreciation for the interdependence of all people, as well as providing students with opportunities for successful future careers.

CSI offers ~60 undergraduate programs, 30 master's level programs, and 3 doctoral programs. CSI participates in several Ph.D. program offerings - through a consortium model with the CUNY Graduate Center, CUNY's principal doctoral granting R1 institution: Biology, Chemistry, Computer Science, Environmental Science, Neuroscience, Physics, Physical Therapy, and Psychology.

The Computer Science Department offers the degrees of BS in Computer Science, BS in Computer Science-Mathematics, BS in Information Systems and Informatics, AAS in Computer Technology, and MS in Computer Science. The BS in Computer Science has been continuously accredited by ABET since 1989. For more information on the Department of Computer Science and the degree programs offered through the department, please visit our Website at: <https://www.cs.csi.cuny.edu/>.

QUALIFICATIONS

PhD or ABD with the PhD conferred by the start of the Fall 2025 semester Aug. 26, 2025 in Computer Science or a closely related discipline. Also required are the ability to teach successfully, demonstrated scholarship or achievement, and ability to cooperate with others for the good of the institution.

Preferred qualifications include:

- Research and teaching interest in one or more of the following specializations: artificial intelligence, machine learning, security, data science, mobile computing, distributed computing, and cloud computing; however researchers in other areas of Computer Science are also encouraged to apply.
- Applicants who demonstrate potential for attracting externally funded research grants in these fields are particularly desired.
- The chosen candidate is expected to maintain a reputable academic record in theoretical and/or applied research in Computational Science, establish vigorous externally funded research programs, demonstrate a sustained commitment to undergraduate and graduate teaching, and participate in doctoral education through the CUNY-wide program at the Graduate Center. The successful candidate shall recognize his/her shared responsibility for departmental and college service and will cooperate with others for the good of the institution.

COMPENSATION

\$82,928 - \$90,375

Salary commensurate with experience and credentials.

CUNY offers faculty a competitive compensation and benefits package covering health insurance, pension and retirement benefits, paid parental leave, and savings programs. We also provide mentoring and support for research, scholarship, and publication as part of our commitment to ongoing faculty professional development.

*CUNY is in the process of implementing salary schedule increases. Once implemented, salaries of eligible employees will be adjusted by 6.09% with additional increases of 3.25% effective 9/1/2025 and 3.5% effective 9/1/26, in accordance with the terms of the PSC-CUNY collective bargaining agreement
